Plan dashboard clutter cleanup

Visible conversation excerpts from WorkBuddy AI 5.7.6, 10 October 2026.

Planning request
"plan out any noise/ clutter to cleanup from the dashboard"

Implementation request
"do all of them, create a new branch for this change"

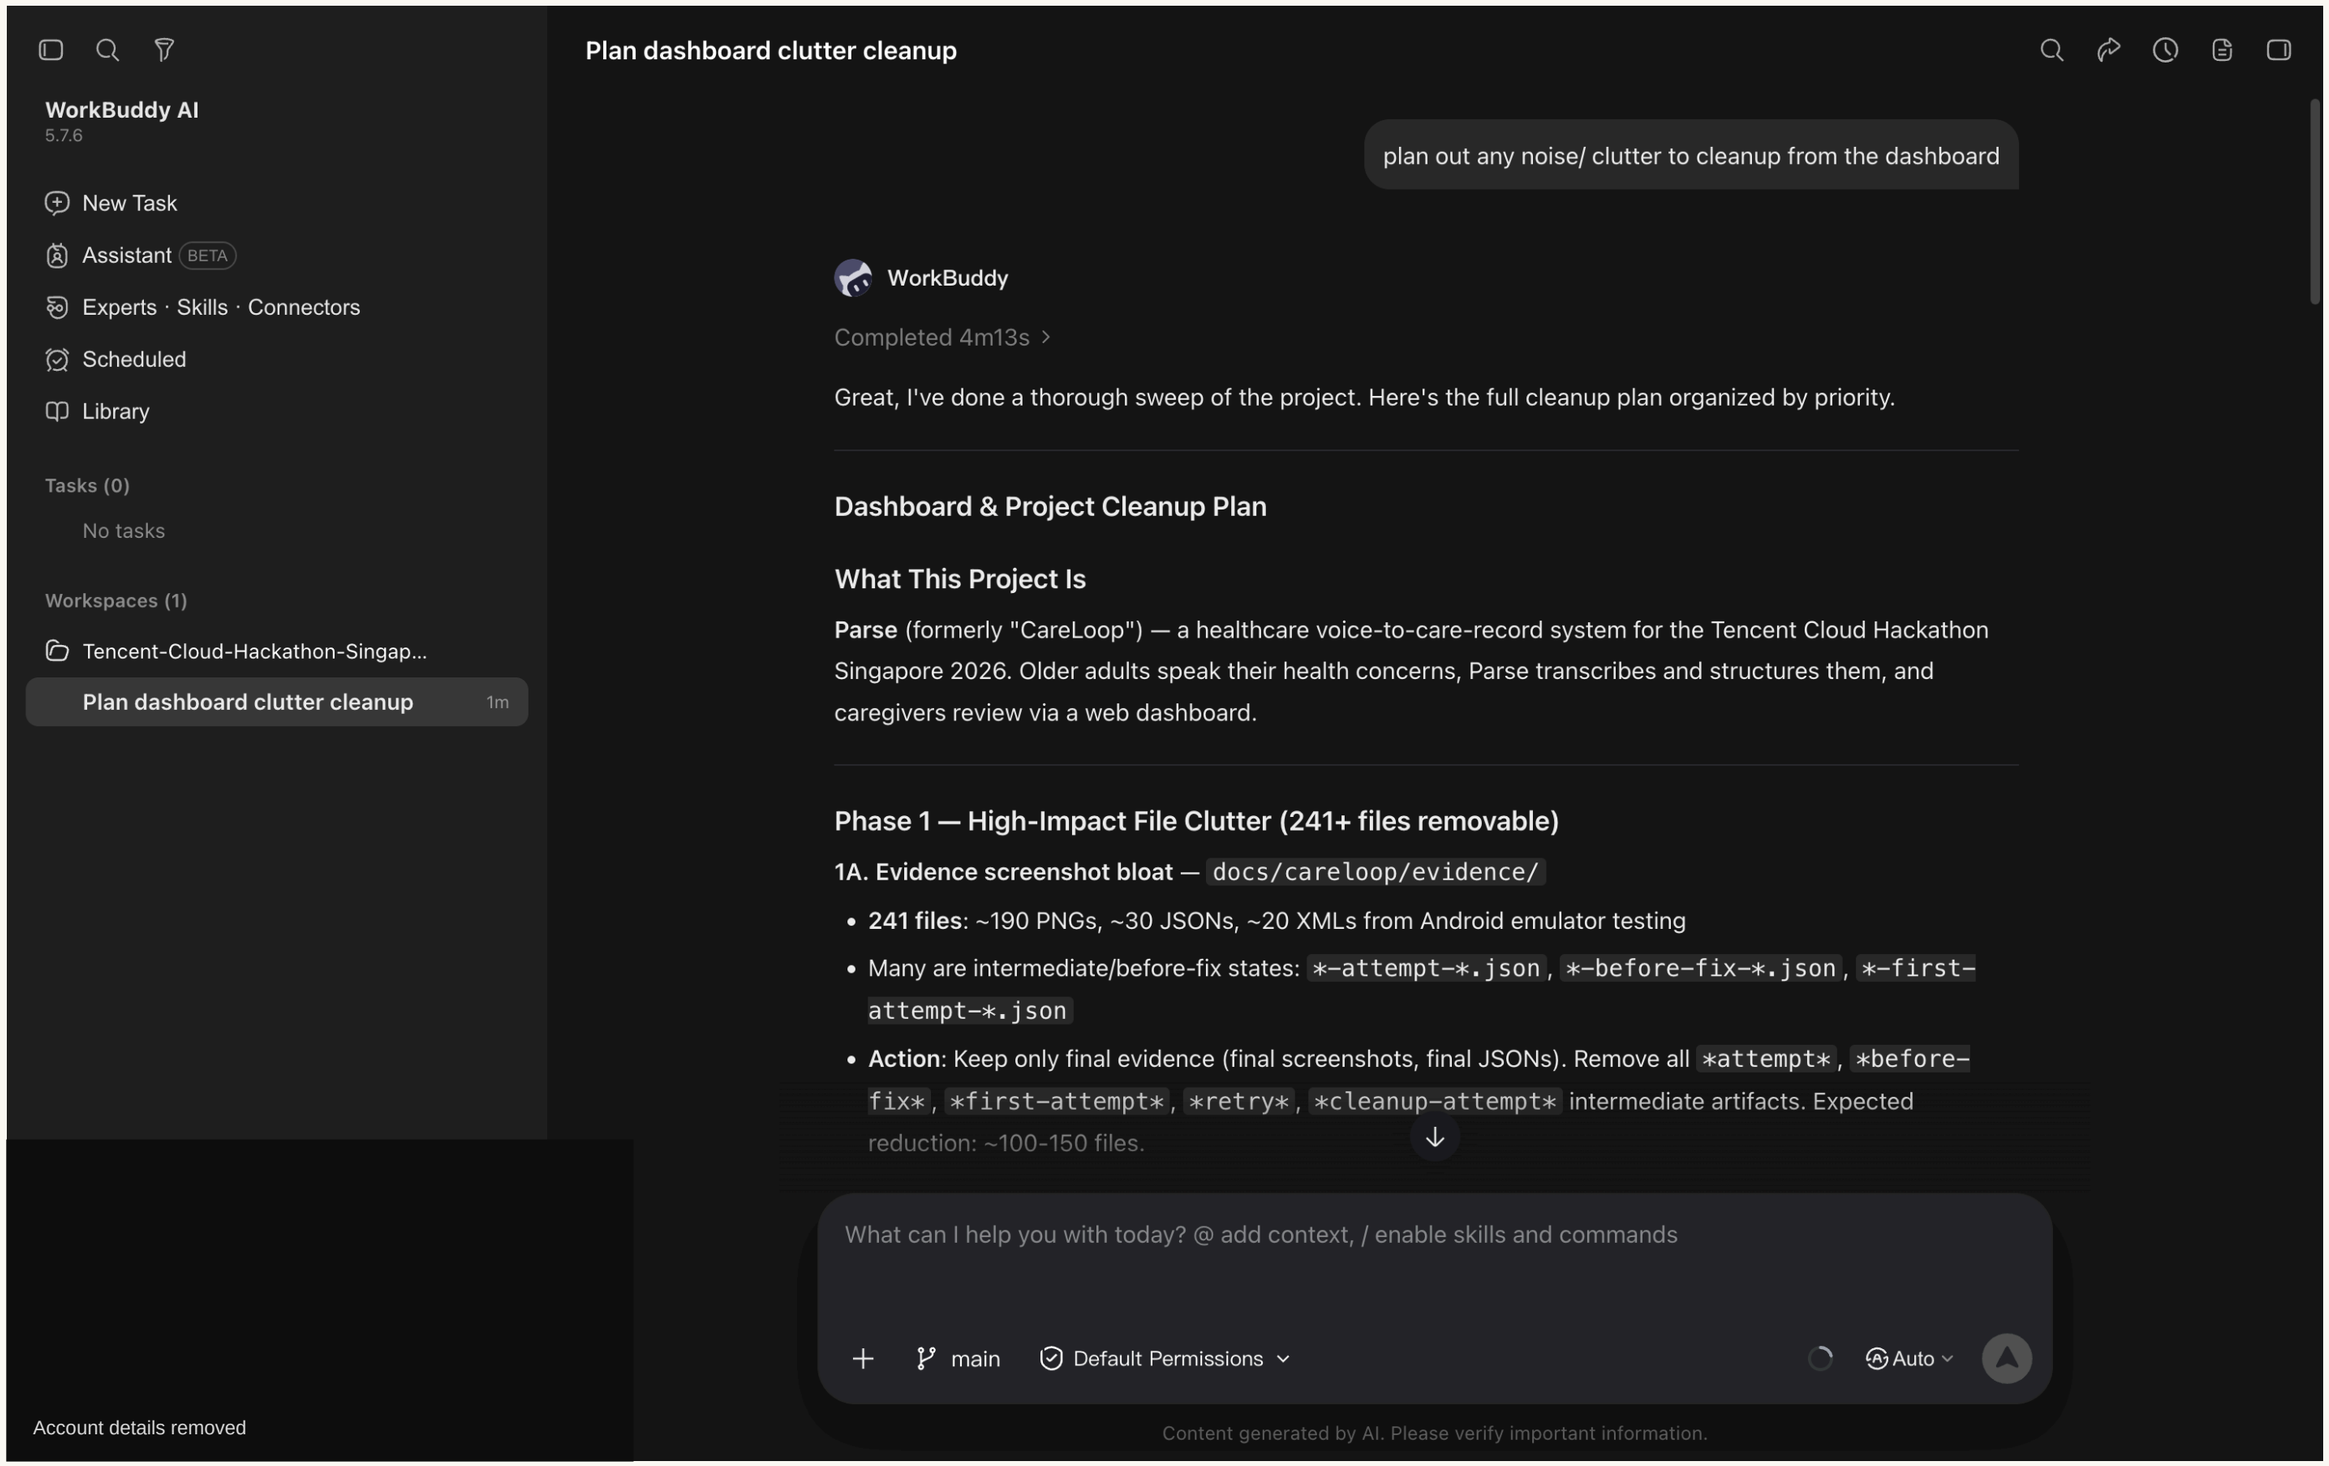

WorkBuddy response
The visible response reports branch cleanup/dashboard-noise-clutter, commit 584c7db, and 149 files changed with 11,004 lines deleted.

Design decision
The conversation explains why reorganizing tools would break paths referenced in the documentation, and treats splitting App.tsx as a separate refactoring task.

The following four pages show the original conversation views. Account details are redacted.

Planning request

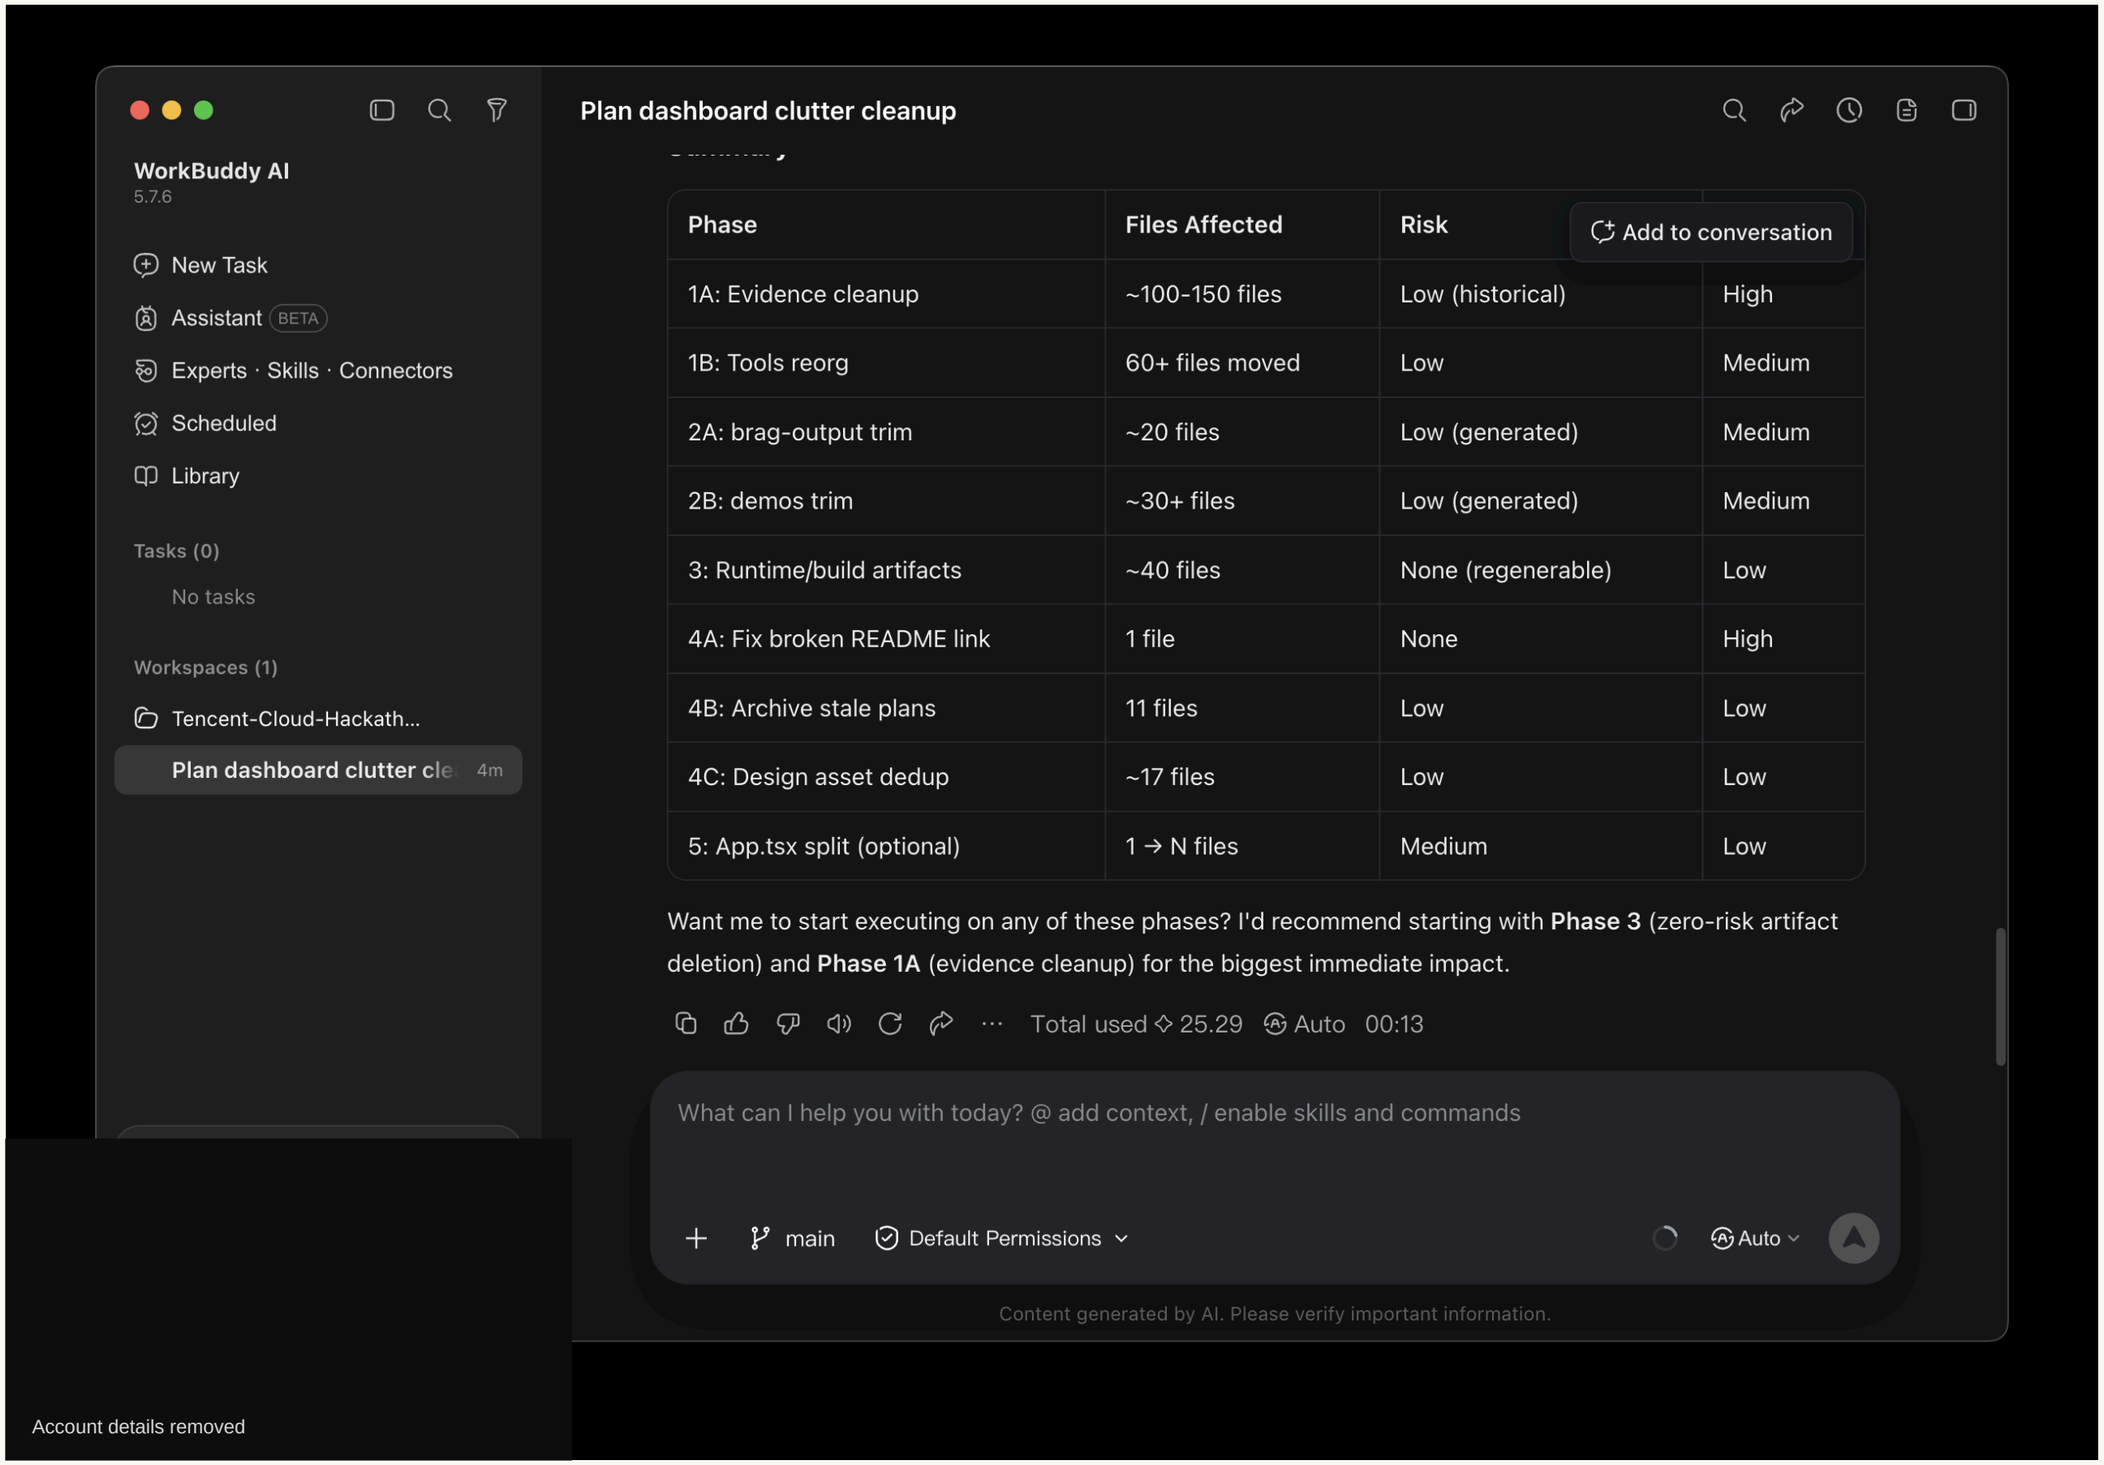

Original request and the start of WorkBuddy's cleanup plan.
